

## **Moddec, Inc. 5 Gallon "Twin-Paks"**

**NSN 6850-01-501-0233**

**Conveniently packaged in a single unitized configuration, MDF-200 is available in a 5-gallon "Twin-Pak" for easy shipping, handling and use. This packaging includes all of the all-liquid components to rapidly produce stabilized pH MDF-200, the accelerated version of the Sandia Decon Formula. No powders to mix, special tools, paddles, or box cutters. Comes with its own liner so users can use directly in the field if required.**

**This packaging is logistically superior in the following ways:**

- **No mixing or transfer - pours directly into delivery devices or into supplied box w/ liner.**
- **No pH adjustment required**
- **Easy to use, no crystals**
- **Fills an M-13 can**
- **Unitized packaging**
- **Easy to understand instructions**
- **No DOT or air cargo shipping restrictions**
- **Deployable in seconds**
